# HARIHARAN M V

An Approaching Aesthetic Data Engineer

Passionate Web Developer skilled in front-end and back-end technologies, committed to driving innovation and user-focused solutions. Interested in leveraging Generative AI to create cutting-edge web applications.

## EDUCATION

### SNS College of Engineering

Bachelor of Technology in Artificial Intelligence and Data Science

2022 – 2026 / CGPA : 8.01

### Brindisi Matriculation Hr. Sec. School

HSC - 77%

2020– 2022

SSLC - 69%

2019 – 2020

## TECHNICAL SKILLS

- Python
- Java
- Web Development
- Machine Learning
- Generative AI
- UI Designing in FlutterFlow

## SOFT SKILLS

- Leadership
- Time Management
- Listening
- Problem Solving
- Team Collaboration

## INTERNSHIP

- CodSoft /Nov 2023-Dec 2023  
JavaProgramming
- CoralFlow / May 2024 - June 2024  
Generative AI

## LANGUAGES

- English
- Tamil

## CERTIFICATIONS

- Python-Prepinsta
- Artificial Intelligence - Prepinsta
- Java -Prepinsta Enterprise
- Machine Learning - Prepinsta
- Web Development -Prepinsta
- Data Science - Prepinsta

## PARTICIPATION

- Hackathon - 2
- Paper Presentation - 3
- workshops - (IOT & Automation) , (GenAI)
- Code Debugging -2

## AREA OF INTEREST

- Artificial Intelligence
- Full Stack Development

## PROJECTS

### Stock Prediction Using AI

Developed an AI-powered stock market prediction system using Python, TensorFlow, and scikit-learn. Collected and preprocessed historical data to build predictive models, providing accurate stock price forecasts and actionable insights for investors. Showcased skills in data analysis, model building, and AI application to financial data

### C3 Square - (Startup live project)

C3 Square is an innovative mobile and web app built with Flutter Flow to streamline the construction industry by integrating all key project elements. It offers a user-friendly platform where engineers, labor, designers, and managers can collaborate efficiently. Users can manage materials, track site management, and oversee project progress in real-time. The app's cross-platform experience enhances coordination, reduces costs, and ensures high-quality construction outcomes. Leveraging Flutter Flow, C3 Square delivers rapid development and precise project execution.
